

The IQ Freezer. The Intelligent Choice.

Key Benefits

Selling Capacity

Huge extra sales potential from exceptionally large cubic capacity.
40% more capacity than a conventional island freezer.

Flexible Stocking

Mix and match your product layouts. The IQ Freezer can be lined up with open fronted end cases or IQ Crown End freezer cases to give you total product display flexibility.

LED Lighting

Far more energy efficient than standard lighting. Projects light to enhance product display.
No need for obtrusive light header boxes.

Merchandising

Forget standard low height freezers that don't display your products to their full potential.
The IQ Freezer has an extremely large display area that maximises product facings. Not only can you see a far greater range of product, your customers can see your products from further away.

Glass Slides

Smooth sliding glass with ergonomic handles.
Easy to use, easy to clean and very stylish.
Helps minimise temperature variation.

Adjustable Feet

Levelling feet for correct positioning and alignment.

Bumpers

Stylish stainless steel bumpers that protect the merchandiser.

Rating

Tested to Australian Standard AS1731. MEPS rated.
Built in Australia to suit Australian conditions.
